

TRAMIGO

TRACKING & CONNECTIVITY

COMPLETE SOLUTION

TRAMIGO OBD STANDARD

PLUG & PLAY FOR BASIC TRACKING

Ready to use in seconds! Tramigo plug & play OBD Standard is the best tracking solution for any vehicle with OBD II port. No installation is required and comes with an embedded SIM that works in 2G networks. Includes access to TramigoCloud and TramigoApp for real-time tracking and more.

TRAMIGO OBD STANDARD FEATURES

GEOFENCING

Define a geographical zone to track if your vehicles are leaving or entering that zone

START/STOP REPORT

TRIP HISTORY

Keep track of the vehicle's route, distance, and date and time of trips

IGNITION-ON ALERT

Get notified when the vehicle ignition is turned on or off

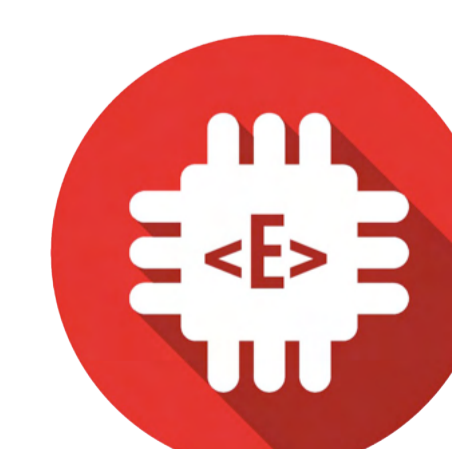

SPEED ALARM

Set speed limits and receive notifications when drivers exceed limits

LIVE TRACKING

Real-time view providing the vehicle's exact position

eSIM INCLUDED

Tramigo's embedded multi-network connectivity

BUILT-IN BATTERY

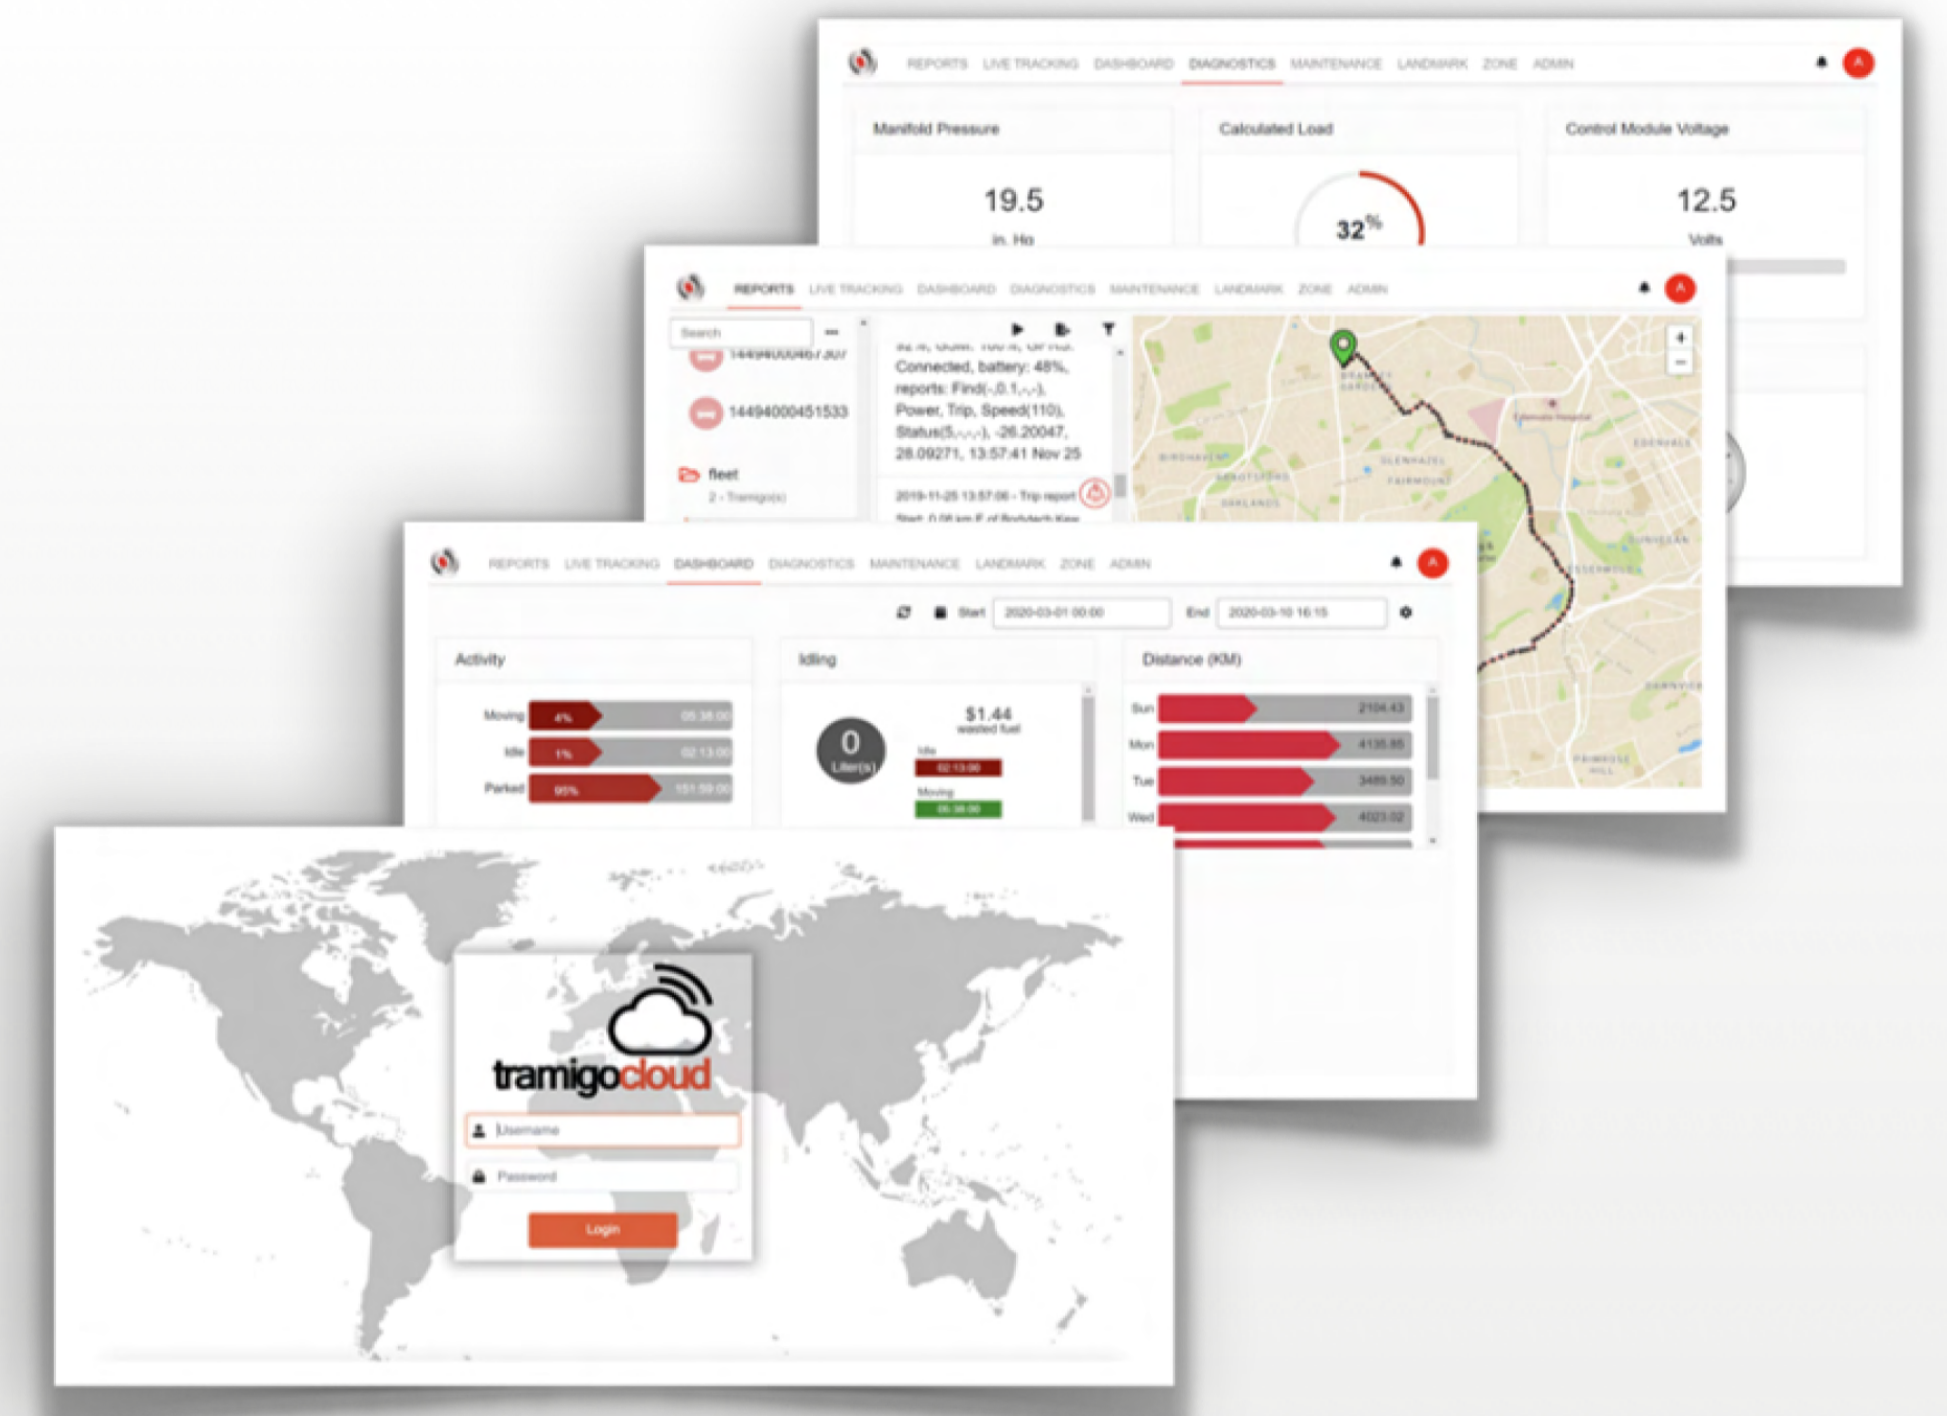

To enable tracking in case of tampering

TRAMIGO SOFTWARE

Tramigo offers software solutions which allows you to monitor your vehicles at your control center or from your mobile devices:

- **TRAMIGOCLOUD**

TramigoCloud allows you to track your fleet behind a secure web login and puts a full control center within your reach wherever you go. With centralised updates the latest features are always immediately available to all of our security focused customers. TramigoCloud is recommended for fleet management.

- **TRAMIGOAPP**

TramigoApp is an easy but secure way to track and monitor your vehicles anytime and anywhere. TramigoApp allows you to monitor and track your vehicles, staff, or family directly on your phone. Additional features includes trip reports, usage history reporting, geofence and setting alarms. Available for free on App Store and Google Play.
